1R BARRIER XL HAND RAIL

ENGINEERED FOR DUAL PROTECTION, THE XL HANDRAIL BARRIER OFFERS HIGH-IMPACT RESISTANCE AT GROUND LEVEL WHILE ENSURING PEDESTRIAN SAFETY WITH ITS REINFORCED HANDRAIL. DESIGNED FOR INDUSTRIAL ENVIRONMENTS, IT ABSORBS HEAVY COLLISIONS FROM VEHICLES AND MACHINERY, PREVENTING DAMAGE AND MAINTAINING CLEAR PATHWAYS. ITS DURABLE CONSTRUCTION ENHANCES WORKPLACE SAFETY, MAKING IT AN IDEAL SOLUTION FOR HIGH-TRAFFIC AREAS.

STRONG AND LIGHTWEIGHT

Thanks to its unique chemical formula, our barrier surpasses steel barriers in both strength and weight. It is significantly lighter while maintaining its exceptional durability.

MODULAR

Thanks to its modular design, our barrier effortlessly adapts to the changing needs of your facility. This flexible solution is extremely easy to install, assemble, disassemble, relocate and organize.

NO CORROSION

Unlike steel barriers, our barriers are made of durable polymer materials, making them unaffected by environmental elements such as sunlight and rainwater.

NO PAINT AND MAINTENANCE NEEDED

Unlike Raysan's steel barriers that require regular painting and maintenance, our self-colored structure eliminates the need for these processes. Even if the barrier is scratched due to an impact, its surface retains its original color without any change.

ULTRAVIOLET RESISTANT

Our barriers are designed with exceptional resistance to UV radiation. Their chemical structure remains intact even after prolonged outdoor use, ensuring long-term durability.

ANTIBACTERIAL

Our barriers have an exceptional chemical formula that prevents them from having any chemical reaction with the substances they come into contact with.
